TWIGA AERO TRAINING COURSES

# Masterclass Workshop: Aviation Ground Operations Management

## Overview

Impactful, short and to the point, this course not only provides an introduction into the world of ground operations, it also gives practical insight into the specific challenges facing the ground operations arena and its impact in the aviation industry.

## Objectives

- Understand the evolutionary role of ground operations
- Identify the key players in the aviation industry
- Understand their linkages and interdependencies
- What is in store for the future
